22-28 SEPTEMBER 2024

THE ONGOING EMC

EXPERIENCE

WELCOME to our MASTERMIND experience

As we look back on the first 10 years of EMC providing education to almost 200 graduates, we wanted to create the next experience for our alumni that still would encapsulate parts of the transformation that only comes from the Advanced Course!

As we thrive in this new era of design, creativity and attitude are paramount to creating consciously.

AND, we want to create consciously with you! We hope you can join us on this adventure.

Christi & Tomas

01

SHARPEN YOUR CREATIVITY

How we go about challenging our creativity is the tell-tale sign of how we will excel in our journey.

Taking time to dedicate ourselves to grow and sharpen our skills always pays off.

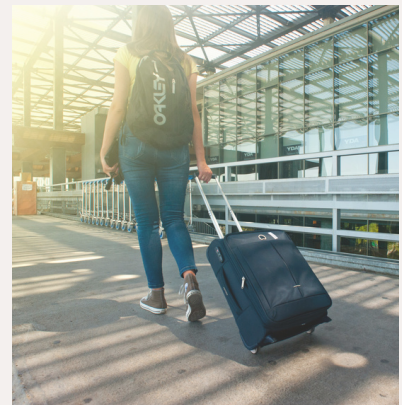

02

MEETING PASSIONATE PEERS

Ever find yourself longing to be around other like-minded creatives?

Time and time again, having that time to be around our creative peers brings out the best of ourselves.

What a great way to join other EMC Alumni to meet up from all over the world!

03

THE EMC-JOURNEY AND FUN

Join in the FUN of experiencing the amazement of the Advanced Course, but without the stress of the exams!

We all remember how our experience was before, now you get to come at it from a different perspective...with some time that has passed.

What a fabulous opportunity to grow in a new way!

Itinerary

01 Welcome Reception

02 Teaching Day 1

Join the Advanced Class for teaching by Tomas and hands-on design.

03 Teaching Day 2

Not 1, but two days of teaching and hands-on design.

04 Trip to Paris

Travel by train to Paris, tour a museum, and join us in the evening for a gastronomic treat while touring Paris at night.

05 Day 2 in Paris

Finish out your time in Paris by joining your peers for a boat tour before returning to Bruges.

06 Design Day

Take a trip to the floral and supply wholesale, gather your items and spend the day designing for the Mastermind the following day.

07 Mastermind Day

Come together for an experience with Tomas and Christi as each participant gets a "hot seat" time to analysis and coaching to grow in your creativity. Join us that evening for a farewell dinner.

Farewell Dinner

"let's break the rules together"

Tomas

Coaching by Tomas

Sometimes I get the question:

"How can I bring creativity in action for more success?"

Isn't that a question that pops up from time to time with you?

How can I be more creative?

What should I do to be in that creative flow?

The freedom to create without stress or being blocked.

Creativity has always been within you, but we tend to search it outwards.

That's why I love to use the expression: "Biological creative upgrade" - for our students to shift to a new state of being - a new dimension in their creative process.

Most people are waiting for something to come before they feel an emotion. They are waiting for inspiration, to get an idea or a clue what brings them an idea. So, you are waiting for creativity to happen instead of "creating".

You need to KNOW that Creativity is ACTION, not a FEELING.

The analytical mind versus the creative mind.

High creatives are conscious people, able to reprogram their brain to a new outcome.

It's not about resources, it's about resourcefulness!

Are you ready for your creative shift?

Are you ready to go from the old self to the new self?

Embrace personal growth by reaching your highest potential with intention.

The magic of the creative process is that ... there is no magic, but realization.

It's the conscious creative within you!

Tomas De Beuyne

The PARIS experience

Let's enjoy Paris in a slightly different way!

Wish you had just a little bit more time to be in Paris the first time?

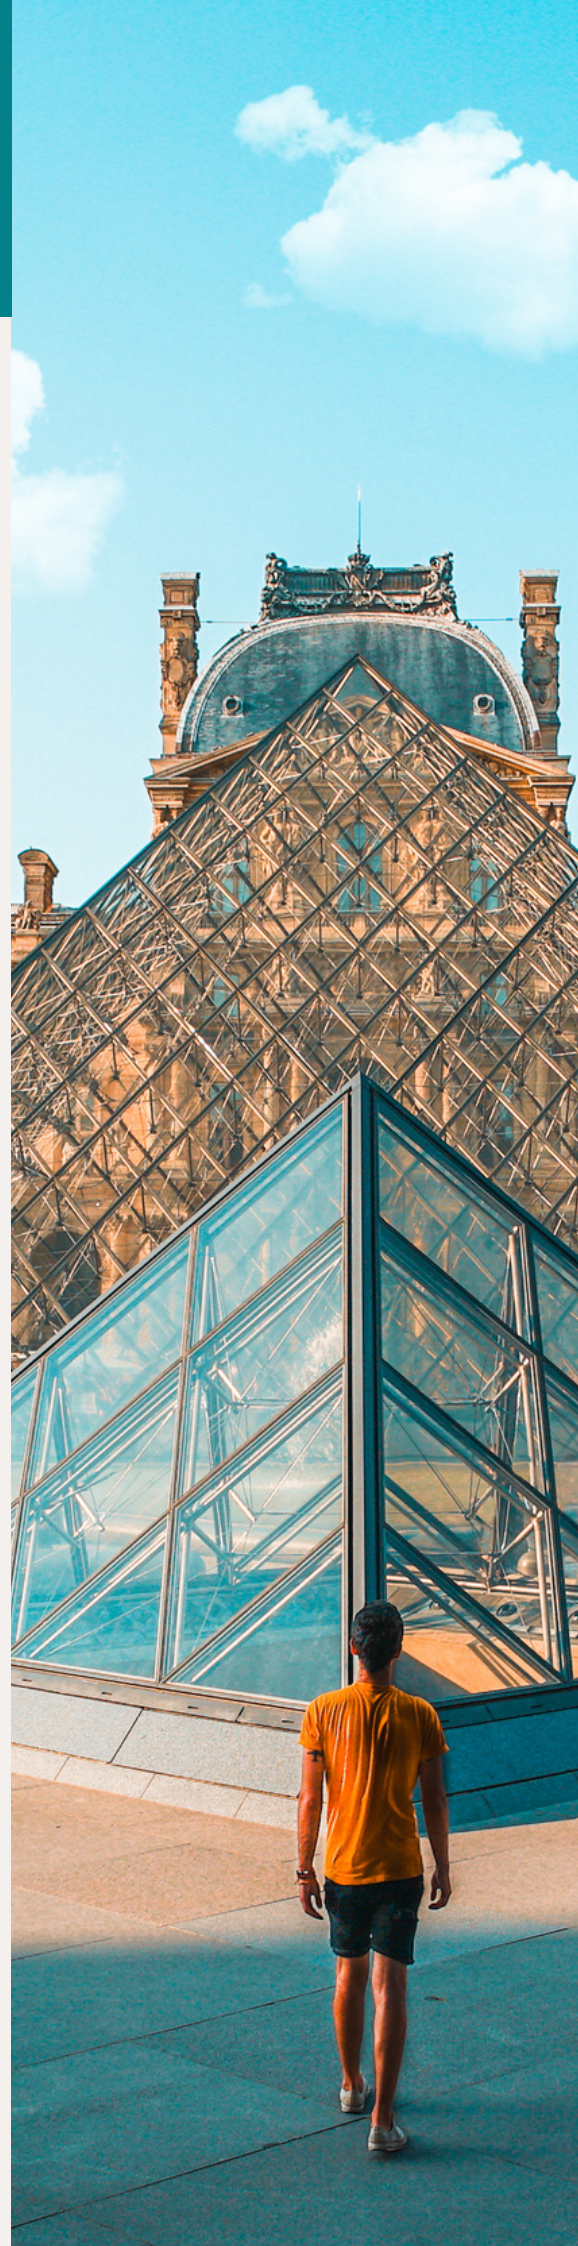

Well, you can join us for this overnight stay in Paris! Pick the museum of choice* to choose pick the artwork to design from. Travel by train each way as you take just a bit more time to relax and enjoy the city!

Join us for dinner and enjoy a gastronomic treat!

Yes, we will enjoy an evening bus tour of the city while taking part in a six course dinner together! There's no other experience quite like it in Paris.

And, your option the following day before traveling back to Bruges...

A boat tour...on the River Seine for a different view of the city or just enjoy the day in Paris!

INVESTMENT

4,350 euro (plus VAT tax)

What do you get?

7 Days and Nights together with your EMC Alumni peers for expanding your creativity consciously while enjoying some fun and relaxing interaction!

- 2 days teaching and hands-on designing
- Alumni Soiree experience
- 2-day trip to Paris(*)
- 1 design day for Mastermind assignment
- Mastermind and Coaching with Tomas
- Certification of Completion
